

The **easiest** way to step up your next promotion!

PromoDek® modular floor display system brings your promotion to a new level!

How does it work?

The PromoDek® consists of several standard building elements that can be easily assembled in any shape or form.

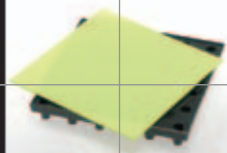

Whether showcasing a new model of automobile, adding dimension to the tradeshow floor or demonstrating a new product in a supermarket, the PromoDek® modular floor display system offers endless possibilities to bring your promotion to a new level.

PromoDek® is an easy-to-use modular floor display system that is effortlessly assembled and updated in minutes. By adding your company colours, graphics or virtually any material to the PromoDek®, you create your own unique atmosphere on a raised floor setting.

Contact IDS Displays for a demonstration in our showroom or in your office.
